SOFTWARE ENGINEERING
Web Development | UX/UI designing| Full-stack Development

Energetic, reliable, and passionate web developer with a desire for coding and embracing challenges. Enthusiastic to create the most creative web designs and competing in the battles. Offering a strong foundation in software engineering and programming principles across multiple platforms. Ability to learn and master new technologies. Loves to work in both teams and self-directed environment. My personal website https://ankitsharda.vercel.app/

WORK EXPERIENCE

Matter Consulting– *Melbourne, Australia*   07/2021 – 06/2022
Project Manager - Full Stack Engineer
Developing and managing full stack applications

- Working on application development that automates the work.
- Translated designs and wireframes into a highly responsive user interface and reusable components using ***React.js***
- Used ***Express.JS*** for processing and consuming real-time information as it handles multi-user real time data situations very well.
- Working on Drive API's to render and modify the data in real time.
- CRUD application development.

Capx – Financial Services – *International Plaza, Singapore*   07/2021 – 06/2022
Software Developer Intern
Development of the Blockchain website(capx.fi)

- Worked in an agile environment with weekly stand-ups, kept track of user stories/bugs in GitHub projects, and conducted 2 hours of sprint planning and sprint retrospectives per week.
- Translated designs and wireframes into a highly responsive user interface and reusable components using ***React.js***

- Used ***NodeJS*** for processing and consuming real-time information as it handles multi-user real time data situations very well.
- Used JIRA as the bug tracking system to track and maintain the history of bugs/issues on an everyday basis.
- Used Confluence for all the major discussions with the team working on the development.
- Link to the Website: https://capx.fi/

Orchid Community Care – *Melbourne, Victoria*   04/2021 – 07/2021

Front-end Developer and Design

Developed and improved the website design for better User Experience

- Created a new logo for the company using the UX/UI experience using Figma.
- Designed the entire website using Figma.
- Bringing mock-ups to life using HTML, CSS, and JavaScript.
- Testing to identify bugs and technical issues before and after deploying.
- Link to the Website: http://orchidcommunitycare.com.au

PERSONAL PROJECTS

Pounders Burger   10/2021 – 02/2022

Developing and testing Lead

Development and testing of a client's burger shop website(pounders-burger.web.app)

- Designed and created the prototypes of the entire website using Figma.
- Used CSS, HTML5, JavaScript and React framework for the website development.
- Used Jira, and confluence for project management and major discussions.
- Used google firebase for creating the Log-in and Sign-up pages.
- Link to the Website: https://pounders-burger.web.app/contact

Ankit Cinemas   04/2021 – 05/2021

App Development

Development and testing of a personal project- the Movie App(movie-app-liart.vercel.app)

- Designed and created the prototypes of the entire website using Figma.
- Used ***ReactJS*** for the website development
- Responsive Design to make it mobile-friendly
- Used TailwindCSS for implementing the design
- Used external Api from themoviedb.org to update the latest movies into my Movie application

- Link to the Website: https://movie-app-liart.vercel.app

Ba-dastoor   05/2022 – 08/2022
